I guess your narrative is not in RMS yet. Do you have any narratives you can send me so I have some understanding of what occurred. The only one in RMS at this time is from Walsworth.

Chief,

Regarding the death of Wavey Austin, the case will be sent to the Caddo DA's office for review this week (DA's office was not taking DAR cases until recently due to COVID-19). We also have given the 911 calls, call history, and SFD reports to the Coroner for his review. The Coroner's office has not completed the autopsy report.

I need to review the reports for both in-custody deaths even though I know we are waiting on some additional information. Are they in RMS? If so, what are the report numbers?
